

Skills, interests and Qualities:

As a Smart Meter Installer, you will need:

- Gas and electricity can be dangerous if not handled correctly, so the safety of the individual, their work colleagues the public are of the utmost importance in this job. Individuals must be very safety conscious and have a very responsible attitude to work.
- These are physically demanding jobs that involve bending and lifting, so a basic level of fitness is important to be able to conduct the job efficiently.
- These jobs can involve work outdoors, so you should be prepared to work in any kind of weather.
- You will need to have good practical skills for handling tools and instruments and be prepared for some hard work. This is a very skilled job and some aspects require significant amounts of concentration.
- Excellent communication skills are needed plus the ability to work within a team and independently.
- The job may involve travelling and is often field based and you will respond to emergencies day or night. Therefore you will need to be adaptable and flexible and a driving licence is desirable.
- Cable core identification is often coloured and in these circumstances correct colour vision is important. If potential applicants are concerned about colour blindness they should discuss this with us to identify the job role(s) that would be most suitable.
- You will need to have an interest in the gas and power industry and in mechanical/electrical/physical equipment and networks.

Training and development:

- Level 2 Intermediate Level Apprenticeship in Smart Meter Installations (Dual Fuel)

Progression routes out of the Apprenticeship:
On completion of the Intermediate Level Apprenticeship and under normal circumstances, apprentices will continue to work as a competent Smart Meter Installer (Dual Fuel). Whilst in continued employment by a company, individuals will be provided with the necessary on-going on and off job training, including refresher training and new skills training, to enable them to carry out their job role competently.
